Mark Greninger, CIO/GIO
(213) 974-2154   MGreninger@CIO.lacounty.gov

Exhibitors will help you understand where GIS technology is moving and, perhaps, spark new ideas on how you can make better use of what Urban Research and other GIS users in the County can offer.

Showcases:

* Assessor's Office * Beaches and Harbors * CIO's Office * ISD/Urban Research * Mental Health * Parks & Recreation * Public Health * Public Social Services * Regional Planning * Sheriff's Department * Health Services/Community Health Center * LAR-IAC (Regional Planning and CIO) * Registrar Recorder/County Clerk   * *Others*

GIS ~ DRIVING INFORMED ACTIONS

The County of Los Angeles Chief Information Office, in partnership with Regional Planning, ISD and other participating County departments and vendors, invite you to familiarize yourself on how GIS can improve strategic and management decisions while exploring how GIS impacts society.

GIS is an information system that helps get critical information to the decision makers who need it in a form that is useful and easily understood.

Enterprise Geographic Information System (eGIS) in the County of Los Angeles was created to facilitate cooperation among agencies in the County of Los Angeles in promoting development, acquisition and dissemination of GIS infrastructure and geospatial data throughout the County.

We invite you to explore the

GIS projects and applications in the

County of Los Angeles on GIS Day!!

October 2008 Productivity & Quality Awards ~ *Using GIS Technology contributes towards the success of the County!* Some of the recognized projects include: Special Merit Plaque 'Local Update of Census Addresses Project (LUCA)'; Traditional Plaque 'Subdivision GIS Web Mapping Application (SUB-NET)', 'L. A. County Seniors Count! A Seniors' Needs Assessment'; Certificates of Recognition 'DMH/Revenue Management Division, Claims Revenue Recovery Unit'; and many more.   *Congratulations to all recipients!*

On July 1, 2008 Urban Research moved to ISD, strategically to offer centralized and expert Geographic Information Systems support to County and non-County clients. Major services: Applications Development and County-wide Infrastructure Support (eGIS). General services include: custom mapping, web development, web hosting, spatial analysis, fuzzy mapping, development, census support, revenue recovery, demographic analysis, and other specialized services. For more information on how the Urban Research-GIS team of experts can assist you with 'visualization, interpretation and evaluation of your critical client data contact: Ana M. Correa, Div. Mgr, ISD/ITS (562)940-2103, ACorrea@isd.lacounty.gov; Satya Chode, Sec. Mgr, UR-GIS (562)904-2023, SChode@isd.lacounty.gov or Peter Fonda-Bonardi, Sr. Technology Lead, UR-GIS, (562)658-1804 PFonda@isd.lacounty.gov.
